

Patch Through Calling

CHQ Patch Through Calls: Grassroots Lobbying At Its Best!
Quickly mobilize constituents to express their views on pending legislation

Step One:

Our trained campaign representatives call a targeted list of citizens who are likely to support your cause. We explain the issue at hand, the urgency of the situation, and the need to take immediate action.

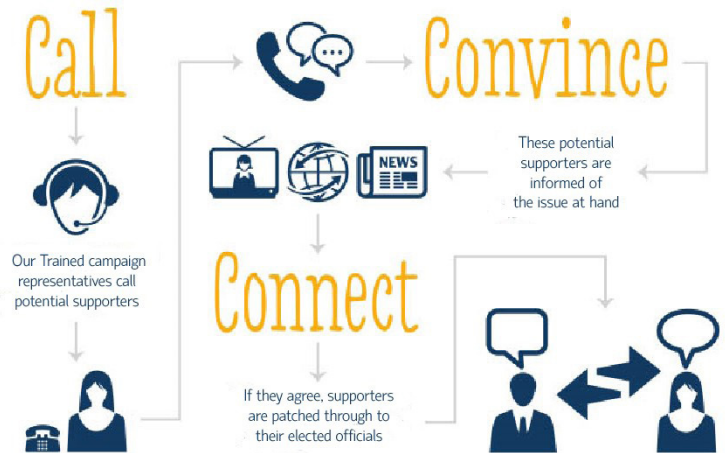

Step Two:

When the constituent agrees to speak with his/her elected official's office, we carefully explain the best way to deliver your message and the process by which he/she will be transferred.

Step Three:

Your constituents are transferred directly to the elected official's office. In their own words, they share their point of view and urge the elected official to vote the right way on the issue at hand.

- Because we charge by the successful transfer, Patch Through Calls easily fit into your budget. You simply set a targeted number of transfers per elected official, per day. We do the rest!
- A large number of Patch Throughs can be delivered to an elected official right before your leadership has a private meeting with that person. Once they sign on to your position, we'll immediately cease calling.
- You may call our office at any time and let us know whose support is wavering or if a friend is receiving calls from the opposition. We'll immediately ramp up our efforts in that district so your friends know the voters are behind them.

Two-time award winning Pollie recipient for Patch Through Calls

The best way to get a politician's attention is to mobilize **hundreds** or even **thousands** of constituents to voice their support or opposition to pending legislation.
